

Working on Database + Understanding Data Types

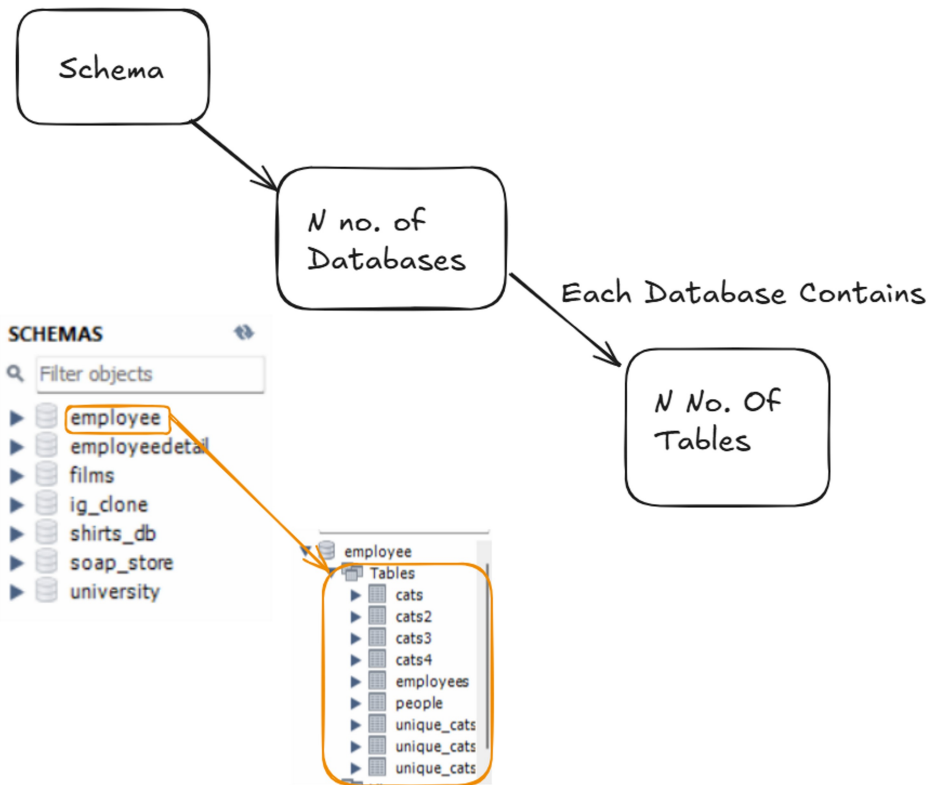

1. Creating a database :

Syntax : CREATE DATABASE <db_name>;

```

mysql> SHOW DATABASES;
+-----+
| Database |
+-----+
| employee |
| employeeedetail |
| films |
| ig_clone |
| information_schema |
| mysql |
| performance_schema |
| shirts_db |
| soap_store |
| university |
+-----+
10 rows in set (0.00 sec)
  
```

drop Vs Deleting

Drop Database-
You are moving your complete db to trash. which includes all table , info , etc.

Deleting on the other hand is just removing either col or row as per filter.

2. DROP DATABASE <db_name>

```

mysql> DROP DATABASE EmployeeDetail;
Query OK, 0 rows affected (0.03 sec)

mysql> SHOW DATABASES;
+-----+
| Database |
+-----+
| employee |
| films |
| ig_clone |
| information_schema |
| mysql |
| performance_schema |
| shirts_db |
| soap_store |
| university |
+-----+
9 rows in set (0.00 sec)
  
```

3. `SELECT DATABASE();` → Read out what database we are using.

- This command lets you which database you are currently using.

```
mysql> SELECT DATABASE();
+-----+
| DATABASE() |
+-----+
| NULL      |
+-----+
1 row in set (0.00 sec)
```

```
mysql> USE EmployeeDetail;
Database changed
mysql> SELECT DATABASE();
+-----+
| DATABASE() |
+-----+
| employeeedetail |
+-----+
1 row in set (0.00 sec)
```

USE

helps us to switch
between different database

```
mysql> SHOW TABLES;
Empty set (0.00 sec)
```

→ If our current database "EmployeeDetail" doesn't have any table, So "Show Tables" would provide empty set.

```
mysql> USE employee;
Database changed
mysql> SELECT DATABASE();
+-----+
| DATABASE() |
+-----+
| employee   |
+-----+
1 row in set (0.00 sec)
```

while switching to another database using "USE" command.
And then we can search for table if exists within a database.

```
mysql> SHOW TABLES;
+-----+
| Tables_in_employee |
+-----+
| cats                |
| cats2               |
| cats3               |
| cats4               |
| employees            |
| people              |
| unique_cats         |
| unique_cats2        |
| unique_cats3        |
+-----+
9 rows in set (0.00 sec)
```
